

GOODS RECEIVE/DISPATCH LOGBOOK

Can you easily view all goods that were received or dispatched from premises, including the inspections that were made?

Our Goods Receive/Dispatch Logbook is used to record goods received and dispatched from premises, including the inspections that were made, using a mobile device

How It Works

✓ All goods received and dispatched to and from premises are captured electronically using a mobile device

Easily create and maintain all goods

✓ inspection checklists that need to be made using a Web Portal

Have all goods inspections made on each

✓ receive or dispatch recorded electronically using a mobile device

✓ Receive daily email reports for all vehicles entry and exit activities for the day

Information for each good receive or dispatch is stored securely on the system, including dates and times for each receive or dispatch, invoice number, items and quantities, transporter, and the checklists made

Easily search, view and download all

information captured anytime and from anywhere using a Web Portal

Receive real time email notification

reports every time goods are received or dispatched to constantly be aware of all activities
